

Miami Cool on Marco Island

Palm Breeze Charters are offering a whole new level of luxury and excitement when it comes to enjoying the beautiful waters around Marco Island.

Captains Melissa and Bill Carlson say they are in the “have fun business” and their main aim is to provide their guests with the experience of a lifetime on every trip. Whether you book an exhilarating charter on their 35 ft sleek and powerful Cigarette Boat or their very stable and luxuriously appointed pontoon boat, you and up to five others, are in for five star treatment “Four Seasons Hotel” style.

From the moment you step on board you’ll be pampered... ice cold soft drinks (if you’d like something stronger you’re welcome to bring your own) and delicious hors d’oeuvres; fluffy towels and sunscreen; beach chairs and sand toys for the kids... they’re all provided.

Where you go and what you do is completely up to you. Ideas for trips include a two hour tour around the island, stopping off along the way to wander deserted beaches and collect incredible shells. And incidentally, Melissa tells me that the local dolphins love the deep sound of their engines and often jump in their wake, so don’t forget to watch for that.

Or perhaps you'd prefer a sightseeing tour around Naples' Gulf-front mansions and maybe lunch or dinner at a restaurant before arriving back on Marco to catch an amazing Gulf sunset. You could even take a trip up to Fort Myers Beach or Captiva Island.... the Cigarette boat is so fast you'll be there before you know it.

And just imagine the street cred you could earn arriving somewhere like the Esplanade for happy hour or Stan's for lunch on Sunday in a softly purring Cigarette boat... you'd be the talk of the town!

Melissa and Bill have both been around boats all their lives and they know the local waters like their own backyard... which, at the speeds the Cigarette boat can achieve, is good to know.

I was lucky enough to take a trip with them recently and what a ride it was! I felt completely safe and comfortable the whole time but thrilling does not come close to describing the feeling of cutting through the sparkling waters of the Gulf at such high speed. The low throb of those powerful engines (quieter than you'd expect but like a cross between a Formula One car and a growling lion), the rush of the wind through my hair and the surprisingly smooth ride were an unforgettable combination. The Cigarette boat takes a chop very well and, of course, there's always the option of keeping to the backwaters if it does get a little rough out there, so they are ready to go whatever the weather.

So why not treat yourself, friends or family to a little Miami cool by taking a trip with Palm Breeze Charters? They will leave from Cedar Bay Marina at your convenience and you can call them at 239-206-0909 for more information.

ON THE WATER

Palm Breeze CHARTERS

Customize your private luxury excursion for up to 6 people. Get up close with dolphin, manatees and other wildlife while cruising the Ten Thousand Islands, Rookery Bay Wildlife Refuge, and the Gulf of Mexico to a secluded beach for shelling only accessible by boat.
